

User Acceptance Testing (UAT)

Date	07 July 2026
Team ID	
Project Name	Q cab– Online Cab Booking Application
Maximum Marks	

Project Overview:

Project Name: Q cab

Project Description: Q cab is a cab booking application that lets users register and log in with an email and password, search and book cabs, view the fare for a booking, and view their booking history. It also includes an admin panel to manage users, cabs and bookings.

Project Version: 1.0

Testing Period: 05-07-2026 to 06-07-2026

Testing Scope:

User registration and login (email/password); Cab search and booking; Fare display for a booking; My Bookings (ride history); Admin dashboard with system totals; Admin management of users; Admin management of cabs (add/edit/delete)

As a user, I can register and log in using my email and password; As a user, I can book a cab by entering pickup and drop locations and selecting a car; As a user, I can see the fare for my booking; As a user, I can view my booking history; As an admin, I can view system totals and manage users; As an admin, I can add, edit and delete cabs.

Testing Environment:

URL/Location: Q cab web application — [add deployed URL or localhost link]

Credentials (if required): [Username/Password]

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Register a new user with name, email and password	Open the Q cab app Click "Register" on the login screen Enter name, email and password and submit	Account is created successfully and the user can log in	New account created; user is able to log in with the registered email and password.
