

Project Design Phase-II Data Flow Diagram & User Stories

Date	07 July 2026
Team ID	
Project Name	Qcab – Online Cab Booking Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail	I can register & access the dashboard with Gmail login	Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password	I can log in and reach my home page	High	Sprint-1
	Dashboard	USN-6	As a user, I can view the Qcab home page with the available services after logging in.	I can see the Welcome page and navigate to Book Cab and My Booking.	High	Sprint-1
	Book a Cab	USN-7	As a user, I can book a cab by entering pickup and drop locations and selecting a car.	My booking is confirmed and a driver is assigned.	High	Sprint-1
	Booking	USN-8	As a user, I can view the fare for my selected car and route.	The fare is displayed for my booking.	Medium	Sprint-1
	My Bookings	USN-9	As a user, I can view my booking history with car, driver, pickup, drop, fare and date.	My past bookings are listed on the My Bookings page.	Medium	Sprint-2
Administrator	Login	USN-10	As an admin, I can log into the admin panel using my admin email and password.	I am authenticated and the Admin Dashboard is displayed.	High	Sprint-1
	Dashboard	USN-11	As an admin, I can view system totals for users, cabs and bookings.	Total Users, Total Cabs and Total Bookings are displayed.	High	Sprint-1
	Manage Users	USN-12	As an admin, I can view and manage the registered users.	I can see the users list and edit or delete a user.	Medium	Sprint-2

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Manage Cabs	USN-13	As an admin, I can add, edit and delete cabs in the system.	New cabs appear in the car list and can be edited or deleted.	High	Sprint-1
	Bookings	USN-14	As an admin, I can view all the bookings made in the system.	All bookings are listed on the Bookings page.	Medium	Sprint-2
